Cesspools are a substandard and inadequate means of sewage treatment and disposal, and cesspools often contribute to groundwater and surface water contamination. Requirements for abandonment and replacement of high-risk cesspools as established in R.I.G.L. Purchasers should consult R.I.G.L. Chapter 23-19.15 for specific cesspool abandonment or replacement requirements. An inspection of property served by an on-site sewage system by a qualified professional is recommended prior to purchase. Pursuant to R.I.G.L. Section 5-20.8-13, potential purchasers shall be permitted a ten (10) day period to conduct an inspection of a property's sewage system to determine if a cesspool exists, and if so, whether it will be subject to the phase-out requirements as established in R.I.G.L.
